PROJECTS

- **CineRec - Movie Recommendation System** June 2025
Technologies: Python, Pandas, NumPy, Streamlit
 - Implemented a machine learning-based recommendation system using Python and **TMDB 5000 Movies Database**.
 - Applied **Collaborative and Content-Based Filtering** techniques to suggest personalized movie recommendations.
 - Analyzed user preferences and behavior data to improve recommendation accuracy up to **90%**.
- **WeatheRight - Weather Forecasting Dashboard** October 2024
Technologies: HTML, CSS, JavaScript, Bootstrap, OpenWeatherAPI
 - Developed a responsive web-based dashboard to display real-time weather conditions across global locations.
 - Integrated **OpenWeatherAPI** for live data retrieval and implemented asynchronous requests to improve performance and user experience.
 - Applied **Bootstrap** to design an intuitive and mobile-friendly interface with dynamic UI components, improving accessibility and usability.
 - Tested on **5** devices and achieved **95%** responsiveness.

TECHNICAL SKILLS

- **Languages:** Python, C++, Java, JavaScript.
- **Web & UI:** React, Tailwind CSS, GSAP.
- **ML/AI & Data:** scikit-learn, Pandas, NumPy, Matplotlib, Seaborn.
- **Development & Collaboration Environments** Google Colab, Jupyter Notebook

CERTIFICATIONS

- **Supervised Machine Learning: Regression and Classification | Coursera (May 2025)**
Acquired skills in Scikit Learn (Machine Learning Library), Supervised Learning, Machine Learning, Predictive Modeling.
- **Google Cloud Computing Foundations | NPTEL (Oct 2024)**
Gained foundational knowledge in cloud computing concepts, **Google Cloud Platform** services, and cloud-based application deployment.

SCHOLASTIC ACHIEVEMENTS

- Awarded **Second Place** at the Graphic Era Hill University Science Exhibition, in collaboration with the **Indian Association of Physics Teachers (18 March 2023)** for innovative project development and technical presentation skills.
- Participated in **Hack-O-Holic 3.0** in a 4-member team, a university-level hackathon hosted at Graphic Era Hill University, Dehradun; Successfully built a prototype **Food Nutrition Analysis App** by applying **Logistic Regression** ML Algorithm.
- Participated in **GERONE 3.0**, an innovation event organized by Graphic Era University in collaboration with **IEEE, Institutions Innovation Council and GEU Motorsports**.
